ONLY \$995 \***

\* Price is for one (1) P-16 Rescue System and does not include shipping costs

***P-16 Rescue System Factory Tune-up Service***

**Service includes:**

**For the P-16 Rescue Tool, PC-100 Controller Unit, CA-4M Power Cable:** Inspect all system components for damage. Install new 12 volts DC Motor. Install new power cable pigtail assembly. Replace clutch stop screw, seals, thrust bearing, decals, fasteners and more. Re-grease gearboxes and chain drives. Re-paint front and rear handles. Test and set to factory specifications.

**For the AP-1600 Attachment Pins:** Inspect pins, ball-detents and tether cables. Repair as necessary.

**For the S-1601 Spreader Arms:** Inspect for excessive damage or cracking. Sharpen serrations where appropriate. Touch-up paint.

**For the C-1601 Curved Cutter & CS-1602 Power Blade:** Inspect blades for excessive damage or cracking. Remove burrs from blades and sharpen where appropriate. Replace cutter nut and tether cable.

**For the PWR-12MP Power Pack:** Check case for excessive damage or cracking. Check test button and indicator. Check battery integrity.

NOTE: Any additional service items needed but not included in the Mission Ready Plan will be quoted separately.
