THE POWER HAWK® P-16X™ UPGRADE

INTRODUCING THE UNMATCHED VERSATILITY NOW CORDLESS

UPGRADE

Power Hawk Technologies, Inc. is proud to introduce the **NEW CORDLESS Power Hawk P-16X™ Rescue System**. VERSATILITY soars to even greater heights with Power Hawk's revolutionary new onboard controller and Li-GHTNING POWER PACK™ 12V Lithium-Ion battery.

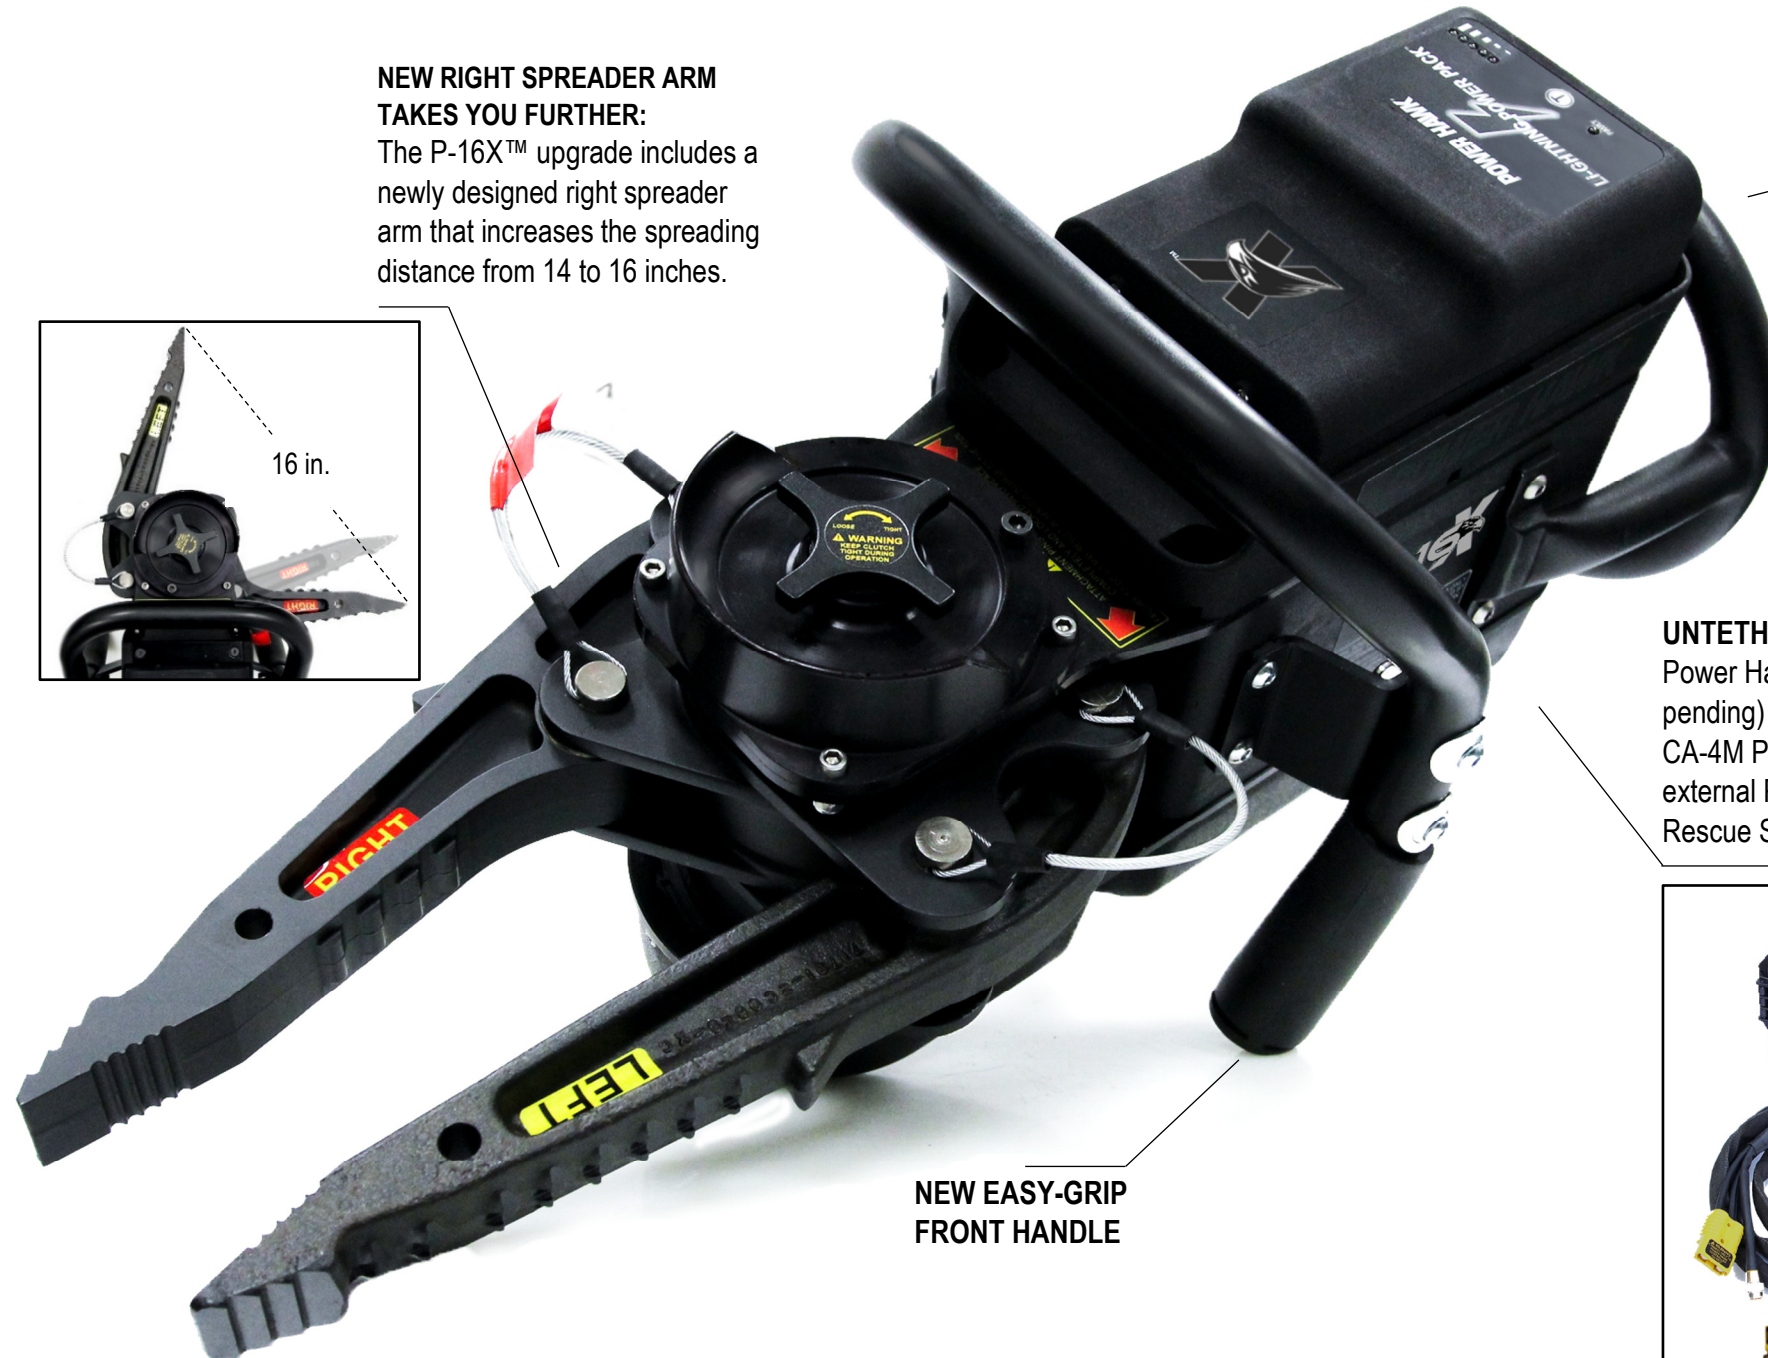

ALL existing P-16 Rescue Tools can be upgraded to the new P-16X™, so **SCHEDULE YOUR UPGRADE TODAY!**

The unique and unmatched benefits of your Power Hawk P-16 - including your interchangeable spreader and cutter attachments, 70-degree pivoting Powerhead, 12V DC back-up power, no hydraulics, and more - is now cordless and completely self-contained. This reduces the standard P-16 Rescue System weight by more than 65 pounds!

The P-16X™ is enhanced with a newly designed easy-grip front handle and new right spreader arm that increases the spreading distance to 16 inches. It also incorporates a built-in remote-control connector for unmanned operations.

We, at Power Hawk Technologies, Inc., are committed to providing our customers with innovative, high-quality, and highly effective life-saving products - coupled with outstanding customer support, knowing that **VERSATILITY SAVES LIVES.**

NEW RIGHT SPREADER ARM TAKES YOU FURTHER:
The P-16X™ upgrade includes a newly designed right spreader arm that increases the spreading distance from 14 to 16 inches.

NEW EASY-GRIP FRONT HANDLE

NEW POWER SYSTEM: The P-16X™ provides lightweight, reliability, safety, and long run times thanks to Power Hawk's new 12V Lithium-Ion PWR-Li12X "Li-GHTNING POWER PACK™". The P-16X™ top cradle and latch design allows quick change of battery packs or to use the PA-12X Power Adapter for harnessing other 12V DC power sources as back-up.

UNTETHERED & COMPLETELY SELF-CONTAINED: Power Hawk's revolutionary onboard controller (patent pending) makes this possible! Say "good-bye" to the CA-4M Power Cable, PC-100 Controller Unit, and external Power Packs. This reduces the standard P-16 Rescue System weight by more than 65 pounds!
